Operation Manual

Preparation

To use YouTube live streaming function, you need to register a YouTube (Google) account and make various Settings for distribution. And if you are new to live streaming, please prepare a phone number that allows Account authentication by voice guidance or SMS massage. For details, please refer to the below URL.

https://support.google.com/youtube/answer/2474026#enable

Go to YouTube Studio.

1 "Start live distribution" (•••) at the right top of the screen to open the live management screen.

2 If your account has not been authenticated for live distribution, the authentication screen will be displayed, then please authenticate with a mobile phone or SMS, and enable live streaming.

* Live streaming is only possible with an account that has been verified for 24 hours.

Connection & Setting

Please make the following settings while connected to the Internet.

1. Camera Setting

[Main Menu] → [Network...] → [Live Streaming...] → [YouTube Log In]

Wait for a while.

On the Google

device pairing page,

your camera screen,

and then click "Next".

code displayed in

2. Setting on PC, Tablet or Smartphone

Using a web browser on your PC or mobile device, go to "google.com/device" and login to your Google account.

Click "Allow" to authorize the GY-HC550/500 to live stream to your YouTube channel.
